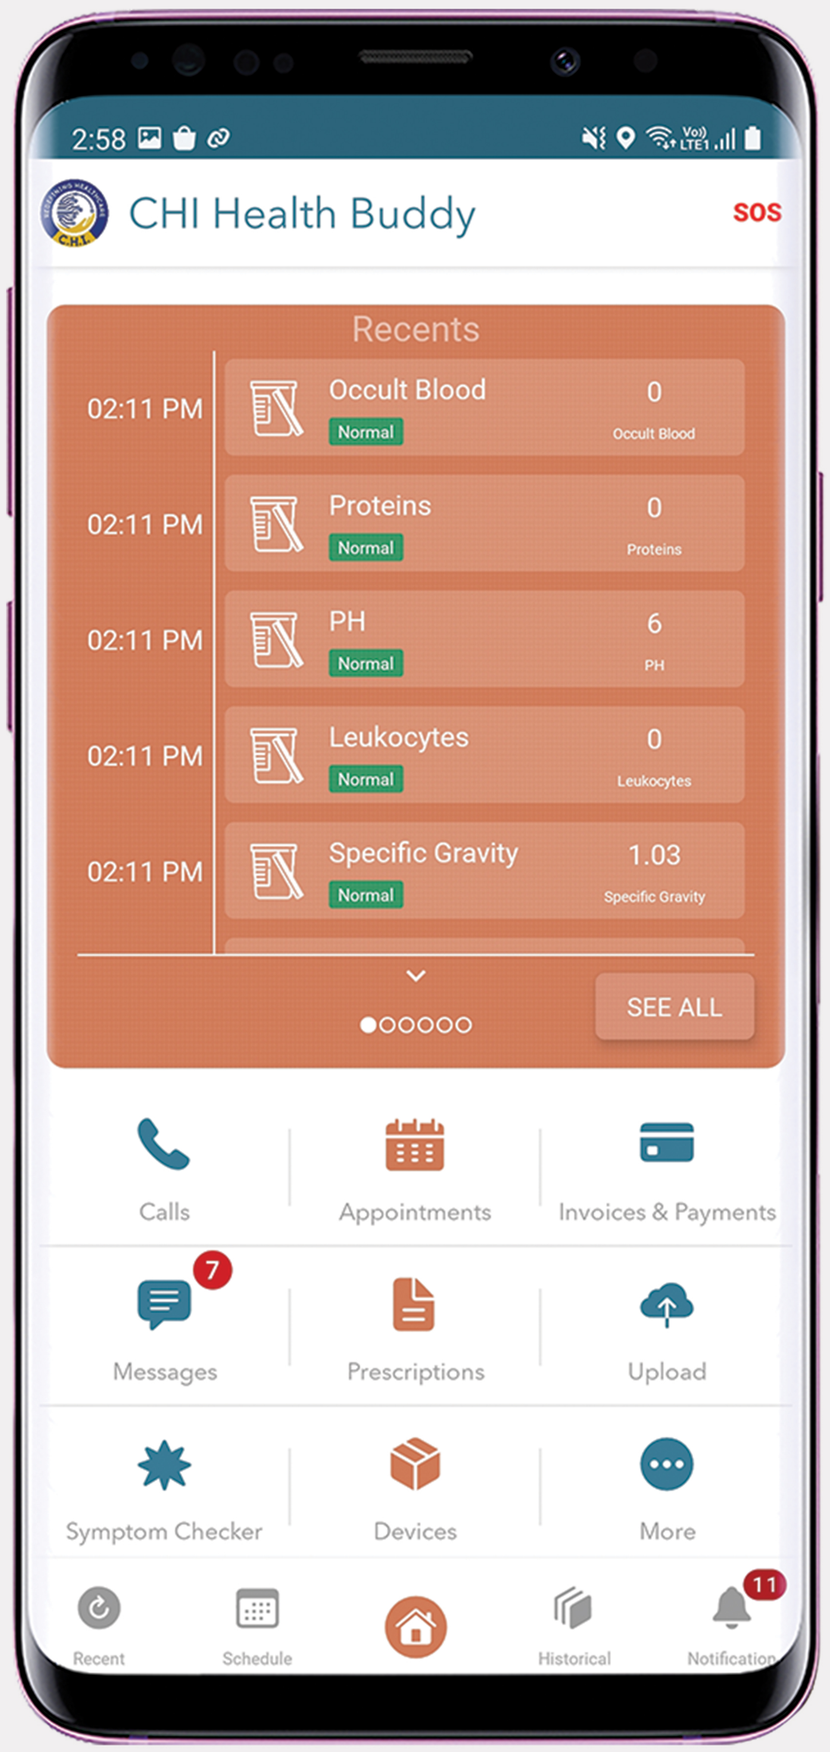
# URINE ANALYZER

CHI's Urine Analyzer is a high-precision device, using modern optics, electronics and other advanced technologies for clinical inspection of urine. The device uses specially designed test strips to aid in quick and efficient analysis. It is applicable for use in hospital, clinic, epidemic station and home-based settings.

## FEATURES

- Test speed >60 test/hour
- Compatible with 8, 10, 11, 12, 14-parameter test strip (optional based on the type of test strip).
- Test results linked to cloud-based patient app (CHI Health Buddy)
- Covers international unit, conventional unit and symbol system.
- High-luminance and white LED, features in long life and good stability.
- 2.4" LCD display
- User-friendly interface.



## TEST RESULTS

**GLU, BIL, SG, KET, BLD, PRO, URO, NIT, LEU, VC, PH, MAL, CR and UCA**
